

HIGH PERFORMANCE ECO-FRIENDLY PRODUCTS

ODORLESS
DEGREASER & **ADHESIVE**
REMOVER

FORMULA

770

ODORLESS
FASTER ACTING
GREATER COVERAGE

PRODUCT DESCRIPTION:

Sentinel 770 Odorless Degreaser & Mastic Remover is designed to remove asphalt cutback adhesives and leave no residue when rinsed. Faster acting than products of similar strength, 770 removes mastic faster than other odorless products. New flooring may be installed once floors are rinsed and allowed to dry completely. 770 does not contain asbestos.

DIRECTIONS: (Always follow product label instructions for best results.)

Floor Tile Mastic Removal

Step One: If necessary, protect walls, drains, cracks, and other flooring with an absorbent (rags, kitty litter, sawdust) to keep liquefied mastic contained.

Step Two: Wet the entire adhesive surface with 770. This may be done by using a sprayer or by mopping 770 over the surface of the mastic. Allow the 770 to soak and penetrate for 10-20 minutes to saturate the mastic.

Step Three: Scrape or squeegee the bulk of the softened or liquefied mastic from the surface with a floor scraper (razor scraper) or floor squeegee.

Step Four: Wash and rinse the floor thoroughly with Sentinel 805 and water to ensure a clean surface. Allow to dry a minimum of 24 hours before installing new flooring.
